## How Are You At Relationships?

### Honest Abe

You are a true love person. You believe that honesty is the only way to a relationship. You have never cheated on your mate. You have what it takes to be in long relationships. Just remember, that trust is what its all about. If you keep this attitude you and your sweetie just might make it!

### Confused Lover

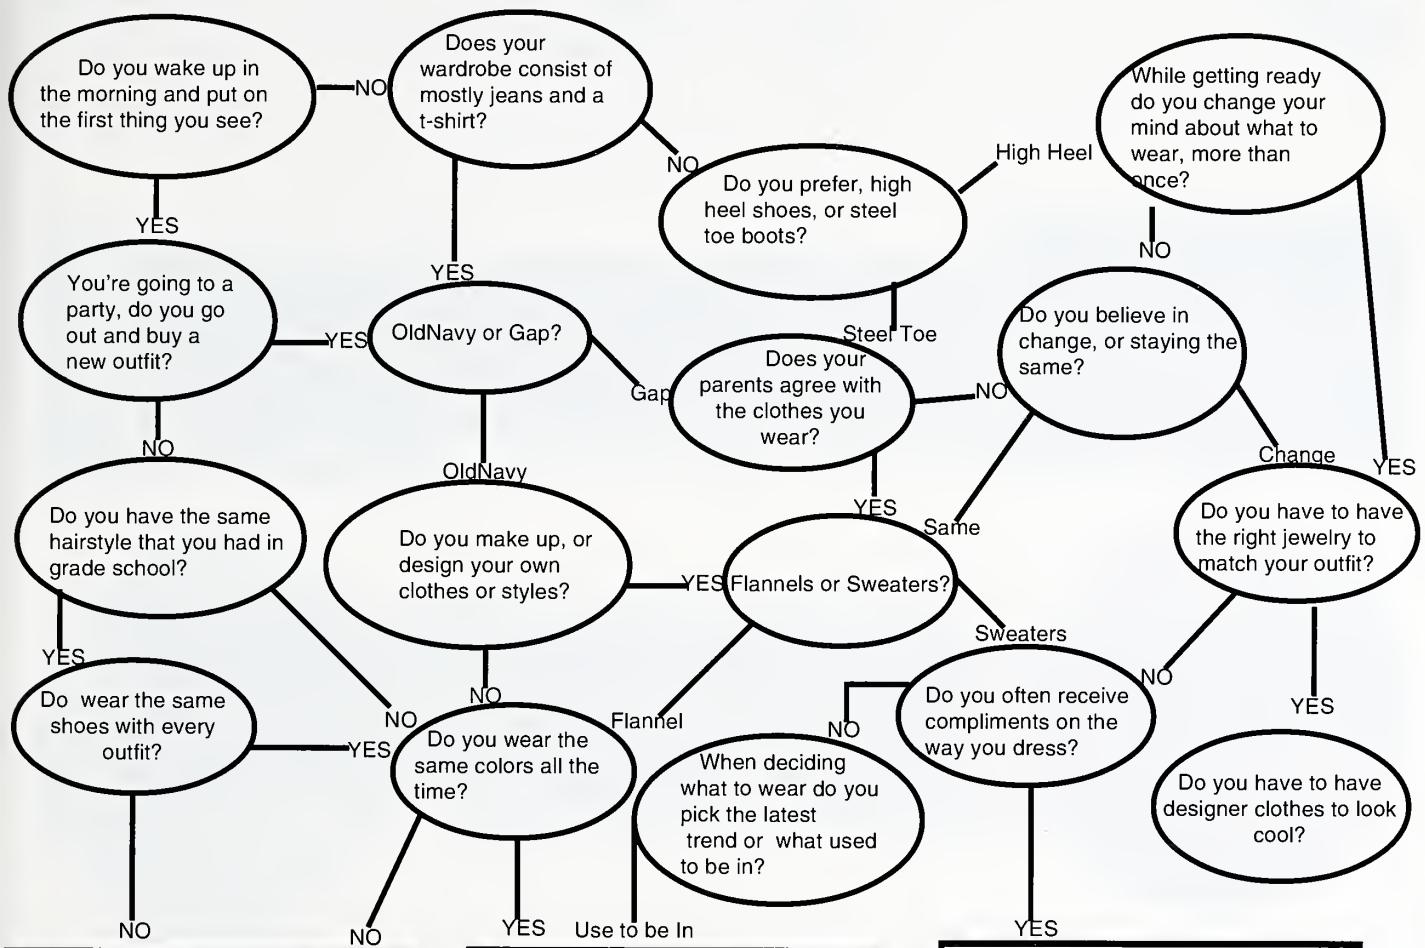

You aren't very good with relationships. You like someone one minute and another person the next. Although you have never cheated on anyone, your relationships usually don't last longer than a month. You don't know what you want in a relationship, sometimes you feel like you just want to be loved. Just be patient and experiment a little and the love might come to you. Don't worry this is not a bad thing.

### True Player

Haters are gonna hate, and players are gonna play. So lets face the facts, you are a player. You don't care who you hurt, just as long as you don't get caught. You probably have had two mates at once. You aren't ready to settle down and you are in fact still young, but lets remember that people have feelings, and all this playing could come back to you!

# Are you fashion material, or a fashion victim?

Start:

## Plain Jane (or Wayne)

There is nothing wrong with being ordinary. Jeans and a T-shirt or something similar is your style. Your style is simple, but yet presentable. You don't spend hours getting ready for any occasion. You believe in just being yourself. You never go for change, and if you do its not real dramatic. Keep being yourself and things will be okay.

## Fashion No-No

Congratulations, you have been stuck in the wrong fashion decade. Your clothes are unbelievably weird! Hey don't get offended its alright, nobody is perfect. In fact, there isn't any rules that say you can't wear what you want. It's all about being yourself and you show it through your clothing. You're the type of person who would wear poka dots with stripes and meet the president of the United States.

## Trend Setter

You have just won a Golden Ticket for being a style goddess/god! You follow the latest fashions, and even make some of your own. You could wear socks on your hands and people would copy your style. You know just the right outfit for the right occasion, and you can mix and match and still look good. Keep up the good work you are definitely fashion material!

Most fun class: Art (Mr. Judd)

Finishing up an assignment in speech class is how he begins his day at Manual. Chris is a member of the key club and clean team. Chris says that the hardest part about the clean team is, “Having to do role plays.”

Having conversations with people is something that Chris is good at. Maybe that's why he says that the funniest part about the clean team is being able to talk to children and to interact with them.

“In the clean team we discuss drug awareness to young children, and in key club we do projects to help the community.” Here Chris is finishing up a project for Mr. Deal’s class.

A Club Student

Sitting in her favorite class, Mary is finishing up on her study guide for "The Jungle." She says that the hardest part about her club is, "Trying to get into it, because you have to get your application in ASAP."

Spending most of her free time with her best friend Candi Spears, Mary has to also keep up her grades by studying hard. Lucky for her, the ESC club gives her time to talk about her career and college.

After a long day at school, Mary finally goes home. First though she has to goof off with her friends. She knows when she gets home it's work... work... work! And to-morrow... it starts all over again.

# 0 A DAY IN A LIFE

## Antoinette Gates

After English class Antoinette heads to 2nd lunch. Everyday she tries something new, but today her and Tina Summers decides to have chicken nuggets.

To complete everything in class, Antoinette starts early. At 11:51 she heads to class and begins to work.

During office technology class Antoinette begins typing on the computer. To start herself out she begins with a warm up.

When Antoinette has nothing else to do in class, she does other things to keep herself busy. Her work today is writing a letter to a friend.

A lot of students at Manual change themselves to fit in with a certain “click” of students, would you say you had to change yourself or act differently to be who you are today? Why? “No, I am who I am, and no matter what happens no one can change that.”

Not only do teachers work a full day while teaching students, but also participate in extra-curricular sponsorships. From Key Club to sports, various teachers support Manual through after-school activities and events.

Coach Phil supervises a match from the mat perspective. Phil was inducted into the Hall of Fames this year.

## WINNERS ARE PEOPLE LIKE YOU

Winners take chances, winners don't give up. Winners are flexible. Winners don't blame fate for their failure, nor look for their success. Winners are patient. Winners are people like you; they make the world a better place.

# The Attack Heard 'Round The World: Tragedies That Took Place On September 11th

What does this mean?

How will it affect us as we are growing and having our own children? Do we want them growing up in this kind of a world? When will people learn that one person does make a difference? All you have to do is try. Try to make this a better place for our generation and the next.

The Reaction.

Ash covered people being evacuated from all the rubble surrounding the World Trade Towers and the inner city.

The Attack 9:47 a.m.

## Inside Look On Teacher and Student Opinions About September 11th

The Rescue Effort.

Fire fighters try and send oxygen to a person caught under all the boulders and pieces of glass that were thrown from the building as it collapsed, on September 11th.

Senior Rachel Vaughn said, "When I heard about September 11th I was taking my GQE I looked up at the T.V. and I seen the World Trade Center blow up. I didn't know what to think. I thought the terrorists were going to come here and bomb us. I was terrified. I feel so bad for all those people and children. We have to do something about this."

The Aftermath.

When ordinary people decide to do extraordinary things, they transform their lives and the lives of those around them.--Oprah Winfrey

When asked about September 11th Christina Wills replies "It really didn't affect me cause everything happened so fast. I thought it would get worse and everyone would die.."

# BLUSHING MOMENTS

Junior, Persia Ferguson  
"I guess it was at the Christmas concert last year for concert choir. I was up in front of all those people and I felt like I was being interrogated because the spotlight was right on me. Plus I knew my mom was there and she would make a big deal about it. I looked at my feet the entire time."

Freshman, Nikki Fisher  
"A couple of weeks ago I was wearing boots that went up to my knees and I fell down the steps."

Sophomore, Darrien Lane  
"My freshman year I was playing basketball and my shots fell down and everyone was there."

Junior, Mary Cure  
"I guess one time after fifth period one day, I was walking through the courtyard and totally tripped on one of those spurs from the trees. I hurt my ankle"

Freshman Scott Jenkins  
"Getting F's on my report card."

Junior, Marissa Strode  
"My most embarrassing moment would have to be my sophomore year when I had a crush on a guy and my friend told him and everyone else in class. I didn't come out of the bathroom for twenty minutes."

Junior, Michael Largent  
"My most embarrassing moment would probably be when I got to school and realized that I not only had my shirt on backwards but it was also inside out."

Junior, Mary Beaver-Hundley  
"These two girls were walking through the hall doors and I looked up to say hi and almost fell face first down the stairs."

# You Yourself

With all the pain and tragedy this year brought, we can still look back at the good times and how our lives grew. Although this year ended, we can reflect on all we have and the memories of Expressions from all our friends.

*It's all about you*
